

The Darwin School

By **Vigdor Schreibman**

Let's start a new educational institution: "The Darwin School"!

The Darwin School would be organized under the "Social Business" model for "non-loss" enterprises as conceptualized by Professor Muhammad Yunus .

Initial funding would come from the White House Task Force for A Strong Middle Class announced by VP Joe Biden Friday Jan 30, 2009.

The ultimate goal of The Darwin School would be to instruct poor and middle class students how to build up their social capital for support of their lives.

Realization of these purposes would be based on structured community dialogue for advancement of democratic sustainability embracing the Global Sounding Moral Code as envisioned in the LoD Values Transformation Matrix.

The community dialogue would be designed to educate students in knowledge management facilitated by the Technology of Democracy.

What do you say?
