Figure 2.13 Percentage of workforce working outside county of residence in Southern Appalachia, 1990.

Figure 2.14 Percentage of workforce in manufacturing in Southern Appalachia, 1980 and 1990.

Figure 2.15 Percentage of Southern Appalachian workforce in the service industry, 1980 and 1990.

Figure 2.16 Percentage of land in farms in Southern Appalachia, 1969 and 1987.

Figure 2.17 Average farm values in Southern Appalachia, 1969, 1978, 1987 (1987 dollars).

Figure 2.18 Percentage change in population density in Southern Appalachian counties, 1970-1990.

Figure 2.19 Projected population per square mile, 1990 to 2010.

Figure 2.20 Correlation of percent of families in poverty and level of per-capita income with nearness to public lands for local communities, 1970, 1980, and 1990.

Figure 2.21 Subregions of the Southern Appalachians.

Figure 2.22 Percent of total industrial output in the manufacturing sector among Southern Appalachian counties, 1992.

Figure 2.23 Percentage of industrial output in secondary wood manufacturing and in services, 1992.

Figure 2.24 (a-i) Comparison of population and age characteristics of local communities near the Deerfield Ranger District, Virginia.

Figure 2.25 Level of toxic release in Southern Appalachian counties, 1990.

Figure 2.26 Timber significant areas in the Southern Appalachians.

Figure 2.27 Percentage land distribution in Southern Appalachian region, 1982 and 1992.

Figure 2.28 Percent of nonfederal rural land in the Southern Appalachian region by type of cover or use, 1982 and 1992.

Figure 2.29 Income earning from private, nonindustrial lands in the Southern Appalachian region.

Figure 2.30 Percent distribution of land types in the Southern Appalachian region.

Figure 2.31 Distribution of timberland ownerships by subregion.

- Figure 2.32 (a-c)** Percentage of land in public ownership, forest industry ownership, and nonindustrial private ownership in Southern Appalachian counties.
- Figure 2.33** Forms of ownership of forest land (total acres), 1994.
- Figure 3.1** Ownership of timberland in the Southern Appalachian area.
- Figure 3.2** Definition of subregions.
- Figure 3.3** Sawlogs and pulpwood produced in the Southern Appalachian area.
- Figure 3.4** Sawlogs and pulpwood produced by subregion within the Southern Appalachian area.
- Figure 3.5** Species distributions of sawtimber removed by subregion and for the Southern Appalachian area as a whole.
- Figure 3.6** County maps of pulpwood production in 1983 and 1992 for the Southern Appalachian area.
- Figure 3.7** County maps of sawlog production in 1983 and 1992 for the Southern Appalachian area.
- Figure 3.8** Production of veneer logs in the portion of the assessment area defined by North Carolina, South Carolina, Georgia, and Virginia.
- Figure 3.9** County map of composite board material production for the Southern Appalachian region.
- Figure 3.10** Real prices of Appalachian red oak and yellow poplar lumber, 1953-1995.
- Figure 3.11** Real prices of delivered hardwood sawlogs by species and grade, 1978-1994.
- Figure 3.12** Real prices for delivered softwood sawlogs by state, 1977-1994.
- Figure 3.13** Real prices for delivered hardwood and pine pulpwood by state, 1977-1994.
- Figure 3.14** County map of the proportion of area that is timberland.
- Figure 3.15** Grade distributions of sawtimber in the Southern Appalachians by softwoods and hardwoods.
- Figure 3.16** Red oak sawtimber inventory by grade and owner.
- Figure 3.17** Flow chart of timber inventory dynamics.
- Figure 3.18** Distribution of growing stock inventories by slope class for national forests and private lands.
- Figure 3.19** Distribution of growing stock and grade one sawtimber inventories by harvest costs for national forests and private lands.
- Figure 3.20** Distribution of growing stock inventories by population density.
- Figure 3.21** Location of pulpmills and 1992 pulpwood production levels in the Southern Appalachian Assessment area.
- Figure 3.22** Share of timberland in national forests by county.
- Figure 3.23** Growing stock and sawtimber inventories on private lands and national forests.
- Figure 3.24** Total volume of timber sold from national forests in the Southern Appalachian Assessment area.
- Figure 3.25** Ranger district groupings for spatial analysis of national forest timber production.
- Figure 3.26** Share of timber produced by national forests for individual ranger district groupings.
- Figure 3.27** Timber production shares by ranger district groupings.
- Figure 3.28** Wage and salary employment in lumber and wood products, furniture and fixtures, and paper and allied products in the Southern Appalachians, 1975-1993.
- Figure 3.29** Wage and salary employment in lumber and wood products, furniture and fixtures, and paper and allied products for four subregions in the Southern Appalachians, 1975-1993.
- Figure 3.30** Ratio of total employment in lumber and wood products, furniture and fixtures, paper and allied products, and all sectors for North Carolina and West Virginia, 1969-1993.
- Figure 3.31** Total employment in the wood products industries calculated using self-employment ratios for West Virginia and North Carolina and wage employment alone.

Figure 3.32 Real wages and salaries (1987=100) for lumber and wood products, furniture and fixtures, and paper and allied products in the Southern Appalachians, 1975-1993.

Figure 3.33 Real wages per job in lumber and wood products, furniture and fixtures, paper and allied products, and all sectors, 1975-1994.

Figure 3.34 Ratio of jobs to volume harvested in the Southern Appalachians.

Figure 4.1 Primitive – Naturally Evolving settings.

Figure 5.1 Roadless areas in the Southern Appalachians.

Figure 5.2 Percentage of roadless acres by national forest.

Figure 5.3 Roadless areas and wilderness in the SAA area.

Figure 5.4 Percentage of wilderness acres by national forest.

Figure 5.5 Proximity of large metropolitan areas and use levels within wilderness.

List of Tables

- Table 2.1** Population of the Southern Appalachian region, by state, 1970, 1980, 1990.
- Table 2.2** Projected increase in persons per square mile (ppsm) through 2010 in Southern Appalachian counties with 25 percent or more of total area in public ownership.
- Table 2.3** Projected growth in population density for Southern Appalachian counties that have the greatest amount of commercial forest land, 2010.
- Table 2.4** Total stream area and projected increase in population density for the 50 percent of Southern Appalachian counties having the greatest stream area, 2010.
- Table 2.5** Employment, employee compensation, and industrial output of the Southern Appalachian region by sector, 1991.
- Table 2.6** Employment, employee compensation, and total output of the Southern Appalachian region among six specially identified sectors, 1991.
- Table 2.7** Total value and percent of total output imported and exported, by sector of the economy, in constant 1991 dollars.
- Table 2.8** Total number and percentage of trips for outdoor recreation exported from the Southern Appalachians by type of activity, 1995.
- Table 2.9** Total business sales, wage income, total value added, and employment by type of outdoor recreation based tourism in the Southern Appalachians, 1995.
- Table 2.10** Population and characteristics for states containing the Southern Appalachians and for the United States, 1990.
- Table 2.11** Area and population characteristics of local communities near five ranger districts, Southern Appalachians, 1990.
- Table 2.12** Southern Appalachian counties ranking in top 210 in the nation in toxic releases.
- Table 2.13** Category of toxic release by county and selected community characteristics.
- Table 2.14** Missions and natural resource values of sample organizations.
- Table 2.15** Major perceived threats to Southern Appalachian natural resource values of sample organizations.
- Table 2.16** Desired outcomes of sample organizations.
- Table 2.17** Percent of correct and incorrect responses to 15 environmental knowledge questions.
- Table 2.18** Percent of respondents who "agreed," "disagreed," or "neither agreed nor disagreed" with 16 environmental issues in the region.
- Table 2.19** Mean scores on dimensions of the New Environmental Paradigm (NEP) Scale for Southern Appalachia, Washington state, and Kentucky residents.
- Table 2.20** Percent of respondents who had participated in environmental behaviors in the past couple of years.
- Table 2.21** A comparison of socio-demographic background in the Southern Appalachian survey with the 1990 Census.
- Table 2.22** Percentage shares of employment, employment compensation, and total industrial output across 10 sectors of the Southern Appalachian economy, 1977 and 1991.
- Table 2.23** Average annual wages by industrial sector for the Southern Appalachian Assessment area and the seven-state region, 1991.
- Table 2.24** Shares of Southern Appalachian employment, employee compensation, and total industrial output by wood products sectors, 1977 and 1991.
- Table 2.25** Value of and change in economic activity in Southern Appalachian wood manufacturing sectors, 1977-1991.

- Table 2.26** Wood products as shares of the economies of the Southern Appalachians as a whole of the three timber-significant areas, 1977 and 1991.
- Table 2.27** Employment, employee compensation and output from wood manufacturing in three timber-significant areas and in the Southern Appalachian Assessment region, 1977-1991.
- Table 2.28** Percent of regional total employment, industrial output, and employee compensation in mining, 1977 and 1991.
- Table 2.29** Trends in direct employee compensation, employment, and total industrial output for tourism in the Southern Appalachians, 1977 and 1991.
- Table 2.30** Surface areas of nonfederal and federal land and water in the Southern Appalachians, 1982, 1987, and 1992.
- Table 2.31** Current status and trends in Southern Appalachian lands, 1992.
- Table 2.32** Current status and trends in cover and use of nonfederal rural land in Southern Appalachian subregions, 1990.
- Table 2.33** Acreage and percentage of nonfederal rural land by type of use and primary and secondary designation, 1992.
- Table 2.34** Distribution of ownerships by size of tract in subregion of the Southern Appalachians, 1985.
- Table 2.35** Reasons given for owning land in the Southern Appalachians, 1995.
- Table 2.36** Percentage of owners in the Southern Appalachians undertaking wetland conservation activities the last 12 months.
- Table 2.37** Primary ownership benefit expected in the next 10 years for private ownership units and acres of private forest land.
-
- Table 3.1** Production of sawlogs and pulpwood (thousand cubic feet) by hardwoods and softwoods for the Southern Appalachian area, 1980, 1983, 1986, 1989, and 1990.
- Table 3.2** Average annual sawlog removals by species for the four subregions and assessment area as a whole.
- Table 3.3** Rates of price change between 1977 and 1994 for various species, grades, and products (percent).
- Table 3.4** Growing stock inventory and sawtimber share of growing stock for the assessment area and subregions.
- Table 3.5** Distribution of sawtimber inventory by grade for national forests and private lands in the Southern Appalachian Assessment area.
- Table 3.6** Annual rates of change in growing stock and sawtimber for inventories for subregions and the assessment area as a whole.
- Table 3.7** Volumes of inventory by different slope class for national forests and other owners.
- Table 3.8** Growing stock and sawtimber removals by purpose.
- Table 3.9** U.S. hardwood lumber consumption by major use 1977, 1982, 1987, and 1991.
- Table 3.10** Total 24-hour pulping capacity of pulpmills in the Southern Appalachian area (1977, 1980, 1985, 1990, 1993).
- Table 3.11** Inventory, growth, mortality, and removals on national forests and private land.
- Table 3.12** Timber removals by cause for national forests and other lands in the assessment area.
- Table 3.13** Share of hardwoods, softwoods, pulpwood, and sawlogs produced by the national forests in the Southern Appalachians and for the various subregions of the assessment area.
- Table 3.14** Average wage and salary employment and annual rates of change in lumber and wood products, furniture and fixtures, and paper and allied products in the Southern Appalachians 1978-1994.
- Table 3.15** Wages and salaries and annual rates of change in lumber and wood products, furniture and fixtures, and paper and allied products in the Southern Appalachians, 1978-1994.
- Table 3.16** Employment and income impacts generated for a \$1 million reduction in output from the lumber or pulpmill sectors.
- Table 3.17** Acres defined as unsuitable in stage one of timber suitability analysis in 1986 and 1992.

- Table 3.18** Tentatively suitable forest area and the percent of unsuitable area by national forests in the Southern Appalachians.
- Table 4.1** Recreation and scenery characteristics.
- Table 4.2** Descriptions of ecological sections in the Southern Appalachian region.
- Table 4.3** Percent of settings by ecological section.
- Table 4.4** Nature - based activity opportunities by setting.
- Table 4.5** Corridors and recreation places by setting.
- Table 4.6** Ownership of settings.
- Table 4.7** Percent of landowners who allow others to use their land for recreation in the Southern Appalachians and in the entire Southeast.
- Table 4.8** Percent of landowners who allowed recreational activities on their land in the Southern Appalachians and the entire Southeast.
- Table 4.9** Important and very important reasons for owning rural land in the Southern Appalachians and the entire Southeast.
- Table 4.10** Thresholds estimated by settings and activities.
- Table 4.11** Trends in percentage of people participating in recreation activities in the Nation, the South, and the Southern Appalachians in 1972, 1982, and 1992.
- Table 4.12** Trends in intensity of participation.
- Table 4.13a** Gender, race, and education of participants in aggregated activities.
- Table 4.13b** Age and income of participants in aggregated activities.
- Table 4.14** White men and women, aged 16 to 30 with college education or less and aged 30 to 45 with college education or more.
- Table 4.15** Estimated number of participants (1,000s) in the Southern Appalachians and remainder of Southern Appalachian Assessment states, by aggregate activity.
- Table 4.16** Cutoff level of participation and proportion of activity days accounted for by most active participants.
- Table 4.17a** Gender, race, and education of frequent participants in activities.
- Table 4.17b** Age and income of frequent participants in activities.
- Table 4.18** Net economic values for selected outdoor recreation main activities in the Southern Appalachians.
- Table 4.19** Sample indicators of place for three communities.
- Table 5.1** Roadless areas in national forests, national parks, and state parks in the SAA area.
- Table 5.2** Acres of officially designated wilderness in the Southern Appalachian Mountains.
- Table 5.3** Annual recreation use of national forest wilderness in the Southern Appalachians.
- Table 5.4** Ecosystem section occurrence in wilderness and roadless areas in the Southern Appalachians.
- Table 5.5** Ecosystem sections that occur in roadless areas but not in wilderness in the Southern Appalachians.
- Table 5.6** Occurrences of ecosystem subsections in wilderness and roadless areas.
- Table 5.7** Ecosystem subsections represented in roadless areas but not in wilderness.
- Table 5.8** Known and potential occurrences of federally listed threatened and endangered species in roadless areas. Species and their status and number of occurrences are indicated by roadless area, agency, and state. Status is indicated by E for endangered and T for threatened.

Table 5.9 Known and potential occurrences of federally listed threatened and endangered species in wilderness. Species and their status and number of occurrences are indicated by wilderness, agency, and state. Status is indicated by E for endangered and T for threatened.

Table 5.10 Amount of possible old growth in individual national forest roadless areas. Acres of old growth are shown as a percentage of total area acres.

Table 5.11 Roadless areas and wildernesses in the Southern Appalachians with less than 75 percent of total acres identified as potentially suitable bear habitat. Areas are identified by name, state, size, and percent of acres in bear habitat.

Table 5.12 Roadless areas and wildernesses that occur within congressionally designated areas in the Southern Appalachians.
